Housing Specification

The Publication

Housing Specification is published six times per annum and along with its digital issue is circulated to an audience of over 25,000 architects, contractors, house builders, installers, housing associations, social landlords and local authority procurement officers working on housing projects across both the private and public sector.

Housing Specification’s mission is to be a conduit for product and technical information, an authoritative voice that will stimulate debate and knowledge, highlighting current trends and developments. Housing Specification engages with its audience via a multimedia platform that includes a publication both in print and digital, a new website www.specificationonline.co.uk, a bulletin, an online product directory and a growing social media channel.

The magazine and website are divided into regular sections that make reference simple, attractive to the eye and an easy read for the professional. Its aim is to be the leading depository of information for innovation, product design, product performance and design/construction technology both externally and internally.

Housing Specification is recognised as the one media platform that serves the whole UK housing sector. It talks to the house builder, contractor, selfbuilder and specifier in both the private and public sector as well as key decision makers within housing associations and residential social landlords.

Start engaging with our readers today - Call our commercial team on 01952 234000
Housing Specification is the only platform in the housing sector that looks at product and project design for both the public and private sector. Today’s housing specifier works across a range of projects and we aim to provide them with access to information that is pertinent to all forms of housing.

The circulation of our print magazine is ABC audited and only targeted at specifiers who are actively involved in housing projects. This is supplemented by a digital circulation drawn from readers who now request their publication in this format as well as architects, contractors and local authority specifiers identified from live housing projects from Glenigan.
